

## Safety Data Sheet

## PLA filament

\*Prepared according to UN GHS (the 10th revised edition)

## 1 Identification

## | Product identifier

|                   |                |
|-------------------|----------------|
| Product Name      | PLA filament   |
| CAS No.           | Not applicable |
| EC No.            | Not applicable |
| Molecular Formula | Not applicable |

## | Recommended use of the product and restrictions on use

|                          |                              |
|--------------------------|------------------------------|
| Relevant identified uses | Please consult manufacturer. |
| Uses advised against     | Please consult manufacturer. |

## | Details of the supplier

|                        |                                                                                                                           |
|------------------------|---------------------------------------------------------------------------------------------------------------------------|
| Name of the company    | Shenzhen Esun Industrial Co.,Ltd.                                                                                         |
| Address of the company | 15A, Microsoft Ketong Building, No. 55 Gaoxinnan 9th Road, High tech Community, Yuehai Street, Nanshan District, Shenzhen |
| Post code              | 518057                                                                                                                    |
| Telephone number       | +86 755 86393186                                                                                                          |
| Fax number             | +86 755 26031982                                                                                                          |
| E-mail address         | bright@esungroup.net                                                                                                      |

## | Emergency phone number

|                        |               |
|------------------------|---------------|
| Emergency phone number | 0755-26031980 |
|------------------------|---------------|

## 2 Hazard(s) identification

## | Hazard classification according to GHS

According to GHS system (10th revised edition), not classified as a hazardous chemical.

## | GHS Label elements

|                   |                |
|-------------------|----------------|
| Hazard pictograms | Not applicable |
| Signal word       | Not applicable |

## | Hazard statements

|                   |                |
|-------------------|----------------|
| Hazard statements | Not applicable |
|-------------------|----------------|

## | Precautionary statements

## ◆ Prevention

|            |                |
|------------|----------------|
| Prevention | Not applicable |
|------------|----------------|

## ◆ Response

|          |                |
|----------|----------------|
| Response | Not applicable |
|----------|----------------|

## ◆ Storage

|         |                |
|---------|----------------|
| Storage | Not applicable |
|---------|----------------|

## ◆ Disposal

|          |                |
|----------|----------------|
| Disposal | Not applicable |
|----------|----------------|

## | Hazard description

## ◆ Physical and chemical hazards

|  |                          |
|--|--------------------------|
|  | No information available |
|--|--------------------------|

## ◆ Health hazards

|              |                                                                                                                                  |
|--------------|----------------------------------------------------------------------------------------------------------------------------------|
| Inhaled      | Inhalation of the product may produce adverse health effects or irritation of the respiratory tract following discomfort.        |
| Ingestion    | Accidental ingestion of the product may be harmful to the health of the individual.                                              |
| Skin Contact | Entry into the blood-stream, through, for example, cuts, abrasions or lesions, may produce systemic injury with harmful effects. |
| Eye          | This product may cause temporary discomfort following direct contact with the eye.                                               |

## ◆ Environmental hazards

|  |                                      |
|--|--------------------------------------|
|  | Please refer to 12th chapter of SDS. |
|--|--------------------------------------|

## 3 Composition/information on ingredients

## | Substance/mixture

|  |         |
|--|---------|
|  | Mixture |
|--|---------|

| Component       | CAS No.    | EC No. | Concentration (wt, %) |
|-----------------|------------|--------|-----------------------|
| Polylactic acid | 26100-51-6 | -      | 100                   |
| /               |            |        |                       |
| /               |            |        |                       |

## 4 First-aid measures

## | Description of first aid measures

|                            |                                                                                                                                                |
|----------------------------|------------------------------------------------------------------------------------------------------------------------------------------------|
| General advice             | Immediate medical attention is required. Show this safety data sheet (SDS) to the doctor in attendance.                                        |
| Eye contact                | Rinse thoroughly with plenty of water and consult a physician if feel uncomfortable.                                                           |
| Skin contact               | No harm in general situation. First aid is not needed.                                                                                         |
| Ingestion                  | Rinse mouth. Rest.                                                                                                                             |
| Inhalation                 | Fresh air, rest.                                                                                                                               |
| Protecting of first-aiders | Ensure that medical personnel are aware of the substance involved. Take precautions to protect themselves and prevent spread of contamination. |

## | Most important symptoms/effects, acute and delayed

|   |                                                                                                                                        |
|---|----------------------------------------------------------------------------------------------------------------------------------------|
| 1 | Substance accumulation, in the human body, may occur and may cause some concern following repeated or long-term occupational exposure. |
|---|----------------------------------------------------------------------------------------------------------------------------------------|

**Indication of any immediate medical attention and special treatment needed**

|   |                          |
|---|--------------------------|
| 1 | Treat symptomatically.   |
| 2 | Symptoms may be delayed. |

**5 Fire-fighting measures****Extinguishing media**

|                                       |                                                                        |
|---------------------------------------|------------------------------------------------------------------------|
| <b>Suitable extinguishing media</b>   | Use extinguishing media suitable for surrounding area.                 |
| <b>Unsuitable extinguishing media</b> | There is no restriction on the type of extinguisher which may be used. |

**Specific hazards arising from the substance or mixture**

|   |                                                                                   |
|---|-----------------------------------------------------------------------------------|
| 1 | Development of hazardous combustion gases or vapor possible in the event of fire. |
| 2 | May expansion or decompose explosively when heated or involved in fire.           |

**Special protective equipment and precautions for fire-fighters**

|   |                                                                                                                       |
|---|-----------------------------------------------------------------------------------------------------------------------|
| 1 | As in any fire, wear self-contained breathing apparatus (MSHA/NIOSH approved or equivalent) and full protective gear. |
| 2 | Fight fire from a safe distance, with adequate cover.                                                                 |
| 3 | Prevent fire extinguishing water from contaminating surface water or the ground water system.                         |

**6 Accidental release measures****Personal precautions, protective equipment and emergency procedures**

|   |                                                                                                                     |
|---|---------------------------------------------------------------------------------------------------------------------|
| 1 | Ensure adequate ventilation. Remove all sources of ignition. Take precautionary measures against static discharges. |
| 2 | Evacuate personnel to safe areas. Keep people away from and upwind of spill/leak.                                   |
| 3 | Use personal protective equipment, do not breathe dust/fume.                                                        |

**Environmental precautions**

|   |                                                       |
|---|-------------------------------------------------------|
| 1 | Prevent further leakage or spillage if safe to do so. |
| 2 | Discharge into the environment must be avoided.       |

**Methods and materials for containment and cleaning up**

|   |                                                                                                                                         |
|---|-----------------------------------------------------------------------------------------------------------------------------------------|
| 1 | Cut off the source of the leak as much as possible.                                                                                     |
| 2 | Keep leaks in a ventilated place.                                                                                                       |
| 3 | Isolation of contaminated areas and restrictions on access.                                                                             |
| 4 | It is recommended that emergency personnel wear dust masks.                                                                             |
| 5 | Collect the spill with a clean shovel and place it in a clean, dry, loosely closed container and move the container away from the leak. |
| 6 | Adhered or collected material should be promptly disposed of, in accordance with appropriate laws and regulations.                      |

**7 Handling and storage****Precautions for safe handling**

|   |                                                   |
|---|---------------------------------------------------|
| 1 | Handling is performed in a well ventilated place. |
| 2 | Wear suitable protective equipment.               |
| 3 | Avoid contact with skin and eyes.                 |

|   |                                                       |
|---|-------------------------------------------------------|
| 4 | Keep away from heat/sparks/open flames/ hot surfaces. |
|---|-------------------------------------------------------|

### Conditions for safe storage, including any incompatibilities

|   |                                                                  |
|---|------------------------------------------------------------------|
| 1 | Keep containers tightly closed.                                  |
| 2 | Keep containers in a dry, cool and well-ventilated place.        |
| 3 | Keep away from heat/sparks/open flames/hot surfaces.             |
| 4 | Store away from incompatible materials and foodstuff containers. |

## 8 Exposure controls/personal protection

### Control parameters

|   |                         |
|---|-------------------------|
| 1 | No relevant regulations |
|---|-------------------------|

#### ◆ Biological limit values

| Biological limit values | No relevant regulations |
|-------------------------|-------------------------|
|-------------------------|-------------------------|

#### ◆ Monitoring methods

|   |                                                                                                                                                   |
|---|---------------------------------------------------------------------------------------------------------------------------------------------------|
| 1 | EN 14042 Workplace atmospheres. Guide for the application and use of procedures for the assessment of exposure to chemical and biological agents. |
| 2 | GBZ/T 300 series standard Determination of toxic substances in workplace air.                                                                     |

### Engineering controls

|   |                                                                                        |
|---|----------------------------------------------------------------------------------------|
| 1 | Ensure adequate ventilation, especially in confined areas.                             |
| 2 | Ensure that eyewash stations and safety showers are close to the workstation location. |
| 3 | Use explosion-proof electrical/ventilating/lighting/equipment.                         |
| 4 | Set up emergency exit and necessary risk-elimination area.                             |

### Personal protection equipment

| General requirement      | No special requirements, please see the description below.                                                                                                                                |
|--------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Eye protection           | In general situation, eye protection is not needed. In the production process, when contacting with vapour or dust, tightly fitting safety goggles.                                       |
| Hand protection          | In general situation, hand protection is not needed.                                                                                                                                      |
| Respiratory protection   | In general situation, respiratory protection is not needed. If exposure limits are exceeded or if irritation or other symptoms are experienced, wear dust proof mask or gas defence mask. |
| Skin and body protection | In general situation, skin and body protection are not needed.                                                                                                                            |

## 9 Physical and chemical properties

### Physical and chemical properties

|                                             |                                                                              |
|---------------------------------------------|------------------------------------------------------------------------------|
| Physical state                              | Different diameter coiled wires                                              |
| Colour                                      | No information available                                                     |
| Odor                                        | Odorless                                                                     |
| Odor threshold                              | No information available                                                     |
| pH                                          | No information available                                                     |
| Melting point/freezing point(°C)            | 180~185                                                                      |
| Initial boiling point and boiling range(°C) | No information available                                                     |
| Flash point(Closed cup, °C)                 | Not applicable                                                               |
| Evaporation rate                            | Not applicable                                                               |
| Flammability                                | Not flammable, can burn under high temperature or combustion conditions      |
| Upper/lower explosive limits[% (v/v)]       | Upper limit: No information available; Lower limit: No information available |
| Vapor pressure(kPa)                         | Not applicable                                                               |
| Relative vapour density(Air = 1)            | Not applicable                                                               |
| Relative density(Water=1)                   | 1.04                                                                         |
| Solubility(mg/L)                            | Insoluble in water, soluble in organic solvents                              |
| n-octanol/water partition coefficient       | No information available                                                     |
| Auto-ignition temperature(°C)               | No information available                                                     |
| Decomposition temperature(°C)               | >300                                                                         |
| Kinematic viscosity(mm <sup>2</sup> /s)     | Not applicable                                                               |
| Particle characteristics                    | No information available                                                     |

## 10 Stability and reactivity

### Stability and reactivity

|                                    |                                                                                                      |
|------------------------------------|------------------------------------------------------------------------------------------------------|
| Reactivity                         | Contact with incompatible substances can cause decomposition or other chemical reactions.            |
| Chemical stability                 | Stable under proper operation and storage conditions.                                                |
| Possibility of hazardous reactions | No information available.                                                                            |
| Conditions to avoid                | Incompatible materials, heat, flame and spark.                                                       |
| Incompatible materials             | No information available.                                                                            |
| Hazardous decomposition products   | Under normal conditions of storage and use, hazardous decomposition products should not be produced. |

## 11 Toxicological information

### Acute toxicity

|                |                          |
|----------------|--------------------------|
| Acute toxicity | No information available |
|----------------|--------------------------|

### Carcinogenicity

| Component       | List of carcinogens by the IARC Monographs | Report on Carcinogens by NTP |
|-----------------|--------------------------------------------|------------------------------|
| Polylactic acid | Not Listed                                 | Not Listed                   |
| /               |                                            |                              |
| /               |                                            |                              |

## Others

| PLA filament                  |                                                                  |
|-------------------------------|------------------------------------------------------------------|
| Skin corrosion/irritation     | Based on available data, the classification criteria are not met |
| Serious eye damage/irritation | Based on available data, the classification criteria are not met |
| Skin sensitization            | Based on available data, the classification criteria are not met |
| Respiratory sensitization     | Based on available data, the classification criteria are not met |
| Reproductive toxicity         | Based on available data, the classification criteria are not met |
| STOT-single exposure          | Based on available data, the classification criteria are not met |
| STOT-repeated exposure        | Based on available data, the classification criteria are not met |
| Aspiration hazard             | Based on available data, the classification criteria are not met |
| Germ cell mutagenicity        | Based on available data, the classification criteria are not met |

## 12 Ecological information

### Acute aquatic toxicity

|                        |                          |
|------------------------|--------------------------|
| Acute aquatic toxicity | No information available |
|------------------------|--------------------------|

### Chronic aquatic toxicity

|                          |                          |
|--------------------------|--------------------------|
| Chronic aquatic toxicity | No information available |
|--------------------------|--------------------------|

### Persistence and degradability

|                               |                          |
|-------------------------------|--------------------------|
| Persistence and degradability | No information available |
|-------------------------------|--------------------------|

### Bioaccumulative potential

|                           |                          |
|---------------------------|--------------------------|
| Bioaccumulative potential | No information available |
|---------------------------|--------------------------|

### Mobility in soil

|                  |                          |
|------------------|--------------------------|
| Mobility in soil | No information available |
|------------------|--------------------------|

### Results of PBT and vPvB assessment

| Component       | Results of PBT and vPvB assessment [according to (EC) No 1907/2006] |
|-----------------|---------------------------------------------------------------------|
| Polylactic acid | Insufficient information, temporarily unable to evaluate            |
| /               |                                                                     |
| /               |                                                                     |

## 13 Disposal considerations

### Disposal considerations

|                 |                                                                                      |
|-----------------|--------------------------------------------------------------------------------------|
| Waste chemicals | Before disposal should refer to the relevant national and local laws and regulation. |
|-----------------|--------------------------------------------------------------------------------------|

|                                 |                                                                                                                                                        |
|---------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------|
|                                 | Recommend the use of incineration disposal.                                                                                                            |
| <b>Contaminated packaging</b>   | Containers may still present chemical hazard when empty. Keep away from hot and ignition source of fire. Return to supplier for recycling if possible. |
| <b>Disposal recommendations</b> | Refer to section waste chemicals and contaminated packaging.                                                                                           |

## 14 Transport information

### Label and Mark

|                           |                |
|---------------------------|----------------|
| <b>Transporting Label</b> | Not applicable |
|---------------------------|----------------|

### IMDG-CODE

|                  |                                                |
|------------------|------------------------------------------------|
| <b>IMDG-CODE</b> | NOT REGULATED FOR TRANSPORT OF DANGEROUS GOODS |
|------------------|------------------------------------------------|

### IATA-DGR

|                 |                                                |
|-----------------|------------------------------------------------|
| <b>IATA-DGR</b> | NOT REGULATED FOR TRANSPORT OF DANGEROUS GOODS |
|-----------------|------------------------------------------------|

### UN-ADR

|               |                                                |
|---------------|------------------------------------------------|
| <b>UN-ADR</b> | NOT REGULATED FOR TRANSPORT OF DANGEROUS GOODS |
|---------------|------------------------------------------------|

## 15 Regulatory information

### International chemical inventory

| Component              | EC inventory | TSCA | DSL | IECSC | NZIoC | PICCS | KECI | AIICS | ENCS |
|------------------------|--------------|------|-----|-------|-------|-------|------|-------|------|
| <b>Polylactic acid</b> | ×            | ×    | √   | √     | √     | √     | √    | √     | ×    |
| /                      |              |      |     |       |       |       |      |       |      |
| /                      |              |      |     |       |       |       |      |       |      |

|                |                                                               |
|----------------|---------------------------------------------------------------|
| [EC inventory] | European Inventory of Existing Commercial Chemical Substances |
| [TSCA]         | United States Toxic Substances Control Act Inventory          |
| [DSL]          | Canadian Domestic Substances List                             |
| [IECSC]        | China Inventory of Existing Chemical Substances               |
| [NZIoC]        | New Zealand Inventory of Chemicals                            |
| [PICCS]        | Philippines Inventory of Chemicals and Chemical Substances    |
| [KECI]         | Korea Existing Chemicals Inventory                            |
| [AIICS]        | Australian. Inventory of Industrial Chemical (AIICS)          |
| [ENCS]         | Japan Inventory of Existing & New Chemical Substances         |

Note:

|     |                                                           |
|-----|-----------------------------------------------------------|
| “√” | Indicates that the substance included in the regulations. |
| “×” | No data or not included in the regulations.               |

## 16 Other information

### Information on revision

|                            |            |
|----------------------------|------------|
| <b>Creation Date</b>       | 2025/11/01 |
| <b>Revision Date</b>       | -          |
| <b>Reason for revision</b> | -          |
